Ivanka Chaental Louise Mendoza

mendozaivanka@gmail.com • (+63) 922-692-0368 • Alabang, Muntinlupa

Senior AI and Prompt Engineer with expertise in designing, developing, and optimizing enterprise AI solutions, multi-agent workflows, and RAG architectures. Skilled in utilizing platforms such as Amazon SageMaker, Amazon Bedrock, OpenAI, and Anthropic to support the quality assurance of enterprise AI tools. Proficient in Python and LlamaIndex, with a strong track record of leading prompt optimization strategies, implementing responsible AI frameworks, and delivering actionable, data-driven insights to executive stakeholders. Proven ability to translate complex requirements into scalable, maintainable solutions that improve efficiency and reduce manual work.

WORK EXPERIENCE

Genpact Services LLC **June 2026 – Present**
Senior AI / Automation / Prompt Engineer - Banking and Capital Markets *Quezon City, Metro Manila*

- Design, develop, and optimize AI/LLM-based solutions, workflows, and multi-agent systems to support quality assurance of enterprise AI tools.
- Architect enterprise AI solutions using frameworks such as LangChain, LlamaIndex, and Hugging Face, incorporating Retrieval-Augmented Generation (RAG) and model evaluation methods.
- Lead prompt engineering and optimization strategies across LLM platforms (OpenAI, Anthropic, Azure OpenAI, Amazon SageMaker, Amazon Bedrock) to ensure high-quality, safe, and accurate AI outputs.
- Partner with product, engineering, and cross-functional teams to identify high-impact AI opportunities and establish AI governance and responsible AI frameworks.
- Mentor team members and foster technical knowledge-sharing on AI implementation best practices.
- Analyze datasets and test results to compile comprehensive reporting and actionable insights for executive stakeholders.

Advanced World Systems, Inc. **July 2024 – May 2026**
Assistant Research and Development Engineer *Alabang, Muntinlupa*

- Designed and implemented **automated anomaly detection and dashboard reporting systems** using **Tableau** that improved real issue detection rates by **3.2x** and reduced manual workload by **75%**.
- Developed **Retrieval-Augmented Generation (RAG)** pipelines using LlamaIndex to recommend relevant test cases with **~90%** retrieval accuracy, **automating test plan creation** and handling structured and semi-structured data.
- Fine-tuned **local LLMs** using Unsloth and Ollama to support **automated root cause analysis**, improving model F1-score to **~93%** through iterative prompt engineering and optimization.
- Built **Selenium-based data ingestion pipelines** to collect and transform data into structured PostgreSQL databases.
- Integrated AI models into a **Django-based web application**, enabling real-time inference and automated workflows for end users.
- Closely collaborates with internal and client stakeholders to translate complex system requirements into **structured and maintainable solutions**, ensuring alignment with business needs.

Advanced World Systems, Inc. **Jan. 2024 – May 2024**
Intern *Alabang, Muntinlupa*

- Developed automated **performance monitoring tools** for GPU and NPU utilization using **C#/.NET**.
- **Automated AI environment setup and inference workflows** with **Python** and **OpenVINO**.
- Researched on local LLM inference and NPU optimization to support internal decision-making.

EDUCATION

Saint Louis University **2020 - 2024**
B.S. Information Technology - Summa Cum Laude (GWA: 1.24) *Baguio, Benguet*

SKILLS AND CERTIFICATIONS

- **Programming:** Python, JavaScript, C#
- **Data & Analytics:** Tableau, PostgreSQL, Elasticsearch, Logstash, Excel
- **AI / ML Tools:** HuggingFace, LlamaIndex, Ollama, Unsloth, OpenVINO
- **Frameworks:** Django, Flask, Vue.js, Selenium
- **Certifications**: Fundamentals of Deep Learning (NVIDIA), Foundations of Data Science (Google), PhilNITS FE Level 2 (ITPEC), N4 (Japanese Language Proficiency)
- **Languages**: English, Filipino, Japanese
